Boone County Master Gardeners are ready to answer your call

BELVIDERE, IL – It's that time of year when our gardens and yards come to life. You may find yourself wondering how to control the changes that you see or how to improve your space from last year's issues. You are not alone. The Boone County Master Gardeners are here to help.

Illinois Extension Boone County Master Gardeners offer a free service answering garden questions at their Horticulture Help Desk. The Help Desk is open 1 to 4 p.m., Monday through Thursday throughout the growing season (April – September).

Master Gardeners are volunteers who have been trained by University of Illinois Extension educators to provide research-based answers to your home horticulture questions. Topics include insects, trees, shrubs, plants, vegetables, fruits, gardens, lawns, and more.

Clients are encouraged to email, bring in photos or drop off samples of their troubled plants, insects, etc. that go along with their questions. The more information the volunteers have about the specific issue, the better they will be able to do their research. Call for tips on how to collect samples. Master Gardeners do not make house calls.

The Master Gardeners can be reached by calling 815-544-3710, emailing in your question to uiemg-boone@illinois.edu, or by stopping at the office at 205 Cadillac Court, Suite 3 in Belvidere during help desk hours. If you need a reasonable accommodation to utilize this service, please contact the Boone County Extension office.

VERY LARGE PUBLIC ESTATE AUCTION
Saturday, May 18th, 2024 9AM Start
Sandwich Fairgrounds - Building 2
Sandwich, IL 60548
Two Auction Rings All Day!

1930 Ford Model A, 1925 Buick Coupe, 2012 Chevy Silverado Pickup, 1995 Ford Mustang, 2005 Ford E450 Camper, John Deere Tractor, Mower, 2005 15' Explorer Boat, Equipment, Antiques & Collectibles, Tools, Household, Bicycles, & Much More!

• 1930 Model A Ford Two Door Hardtop. Four new tires (on the ground) with new inner tubes. New battery rack. Custom built new floorboards with weatherproofing both top and bottom. New front floor mat. Rebuilt carburetor with new modern machined parts. New downdraft air filter (prevents backfiring). New fan belt. No fluid leaks. Runs well and purrs like a kitten. Has been stored in a heated garage. The current owner just doesn't have the time to work on it due to other projects. Wants to pass it along to another enthusiast who can do right by it. It would take very little to make this parade worthy. Clear title.

• 1925 Buick Standard Six, Model 28 (2 Door Coupe) - 98% original and in good running order. This model is listed on the Title as a Master Six engine, but the Wheelbase measures 114.5 inches which conforms to the Standard Six specifications. The coolant system has one line that leads to the top of the head. This is for the Standard Six. The Master Six had one line that branched off into three "feet" that supplied water for the front, middle, and rear of the head. This engine number is 1283728. In the 1920's, Buick did not match the numbers on the frames to the numbers on the engines. The frame number for this car does match the registry for Standard Six models for 1925. **This vehicle's frame number is 1264718.** The plate on the firewall says 25-25, which is the 1925 4 Door Touring (convertible with no windows in the doors). It appears that the engine, body, and frame of this vehicle are all original and correct. It is rare to be all together as most cars from that time frame are a mix of whatever parts from different model years were lying around. This car has a three speed on the floor manual transmission and has very little rust with extremely solid panels, fenders, hood, etc. Front and rear bumpers were not standard but could be added for an additional cost. It appears that was the case at some point, either at original purchase or sometime after. The seating configuration is for a driver and two passengers in the back and a fold out seat in the front passenger position. All in all, it is very rare to find this model in original factory configuration, let alone in this condition. A bit of TLC and this could easily be a Show Queen. The current owner has had it garage kept in a heated garage and just doesn't have the time to work on it and wants to pass it on to someone who will be able to bring back its original shine. Clear Title. **Also for sale: An original owner's "Shop Manual for the adjustment, repair, and lubrication of Buick 1925 Master Six". Various spare parts (extra instrument panel plates, extra headlight cans, etc.).**
